IL BAGNO TRASFORMABILE

Il bagno oggi incontra nuovi life style, interpretando con il Design e l'Interior Design, varie direzioni progettuali. Goman propone quindi varie soluzioni possibili secondo esigenze diverse, che possano essere la risposta a diverse atmosfere. Sono anche suggestioni e suggerimenti di ammodernamento per chi vuole ripensare la propria sala da bagno e, in questo senso, sono state prese in considerazione le conformazioni tipiche del bagno di piccole e medie dimensioni.

Ancora una volta Goman vince la sfida di trovare le soluzioni più confortevoli e sicure persino per gli spazi più piccoli.

E quindi per tutti.

THE TRANSFORMABLE BATHROOM

Today the bathroom meets new style of life, satisfying, with Interior Design and decorations, the various style directions. Goman proposes different possible solutions according to different requirements, which may be the answer to different atmospheres. These are also suggestions of modernization for those who want to re-build up the bathroom, and, for that, it has been taken into consideration eventual typical conformations of bathrooms of small and medium dimensions. Once more Goman wins the challenge in finding more comfortable and safer solutions even in small bathrooms.

Therefore solutions for all needs.

ESSENTIAL CITY

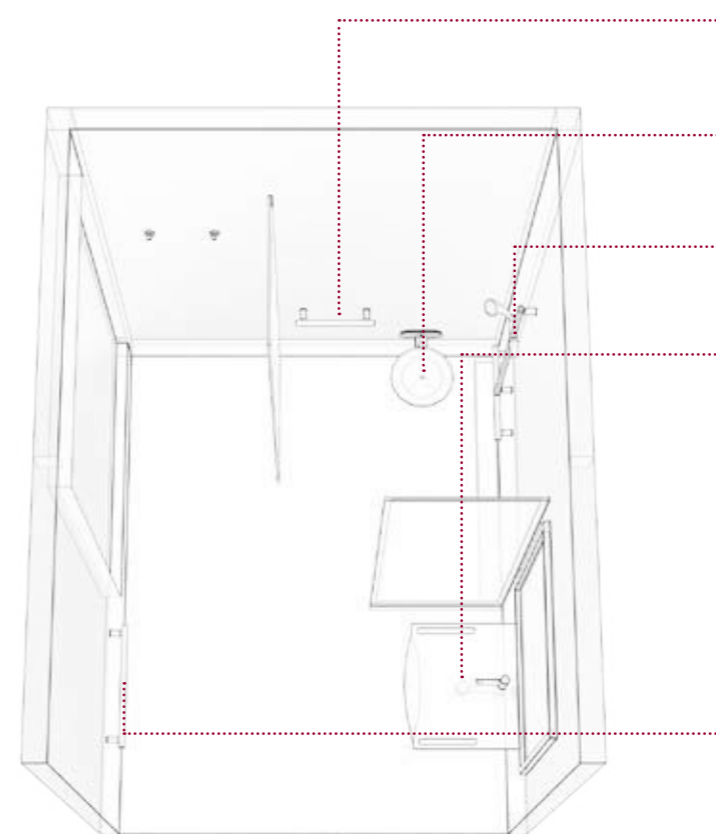

La sala da bagno è composta da elementi dalla linea sobria e pulita come **la Serie MIA**, una piccola oasi di comfort, in cui non c'è spazio per il superfluo, e lo stress è bandito anche nelle metropoli. In un ambiente simile l'essenziale è la persona, con le sue necessità di relax e rigenerazione.

The bathroom is composed of elements with a sober and clean line like the MIA Series, a small oasis of comfort, in which there's no room for superfluity, and stress is banned even in metropolises. In a similar environment the essential is the people, with its need for relaxation and regeneration.
