YOUR
KITCHEN

THE
SOURCE
OF
LIVING

MASTERS OF TECHNOLOGY

THE SOURCE OF LIVING

Water is used for drinking and cooking all over the world. We use running water in the kitchen around 100 times every day! We take it so much for granted that we often don't think of water when we hear the word kitchen. We forget what has to work hardest in the kitchen: the kitchen faucet. An appliance that is used this frequently must naturally be durable and function perfectly every day. In addition, since kitchens are increasingly becoming living spaces, it also has to look great. That is why ergonomics, functionality, aesthetics and finishes are so important in GROHE kitchen faucets. In short this is why we refer to GROHE in the kitchen as [The Source of Living.](#)

THE SOURCE OF ENJOYMENT

GROHE delivers top-quality drinking water directly from the faucet – from refreshingly cold to boiling hot. For filtered, chilled and carbonated water, choose GROHE Blue® Chilled & Sparkling. They look great, offer amazing convenience, and GROHE Blue® cuts out the need to buy bottled water, making a valuable contribution to the environment. GROHE helps you enjoy water any way you want.

THE SOURCE OF TECHNOLOGY

High-quality materials, outstanding design and innovative technologies ensure that your GROHE faucet will last a lifetime. Our faucet levers feature GROHE SilkMove® technology, making them extremely easy and precise to operate. Many different designs and spout heights give you huge scope when choosing your kitchen furniture and sink; whilst pre-window models ensure there is a model to meet all your installation requirements.

THE SOURCE OF STYLE

Our full range of modern 'cosmopolitan', timeless 'contemporary', and simply 'authentic' style faucets offers you exactly the right faucet to match your needs and your taste. And you will want your kitchen faucet to stay looking as good as the day it was installed. GROHE StarLight® chrome resists scratches and ensures a lifelong shiny finish, and if you like the look of stainless steel, you'll love our SuperSteel® finish.

THE SOURCE OF CONVENIENCE

Many of our models are available with pull-out mousseurs and sprays, a convenient and time-saving feature, either for rinsing salads, vegetables or for washing greasy pans. You will be amazed at the adaptability and flexibility of our range of professional sprays – to help make your life in the kitchen as easy as possible.

NIKLAS MICHEL

Master of Technology, tests and adjusts the water hardness of GROHE Blue® for filtered, chilled and sparkling water straight from the faucet.

MASTERS OF TECHNOLOGY

GROHE's people have been regarded by their peers in the industry as Masters of Technology, because of their innovations, outstanding design and awardwinning fittings.

By a combination of their advanced craftsmanship and their cutting-edge approach to effective teamwork and processes, our Masters of Technology take the lead in developing, designing and manufacturing our outstanding product range, all the while testing and fine-tuning each piece to ensure continued customer satisfaction.

The result: Timeless design. And quality that lasts a life-time. Again and again GROHE products surprise users with unique features that provide 'Pure Freude an Wasser'. When you use a GROHE product you can feel the difference. Time after time.

HANDS ON FEATURES

Lead+Nickel Free

No contact of water with lead and nickel due to isolated inner water ways.

EasyExchange

The aerator is easy to install and de-install using just a coin.

RealSteel

Made of solid stainless steel, a robust material with anti-bacterial properties.

EasyTouch

Just touch the faucet at any point with your wrist, elbow or just your fingertip to turn the faucet ON and OFF.

ProfessionalSpray

Features a 360° spring arm and easy switching between the spray and mousseur.

Pull-Out Dual Spray

Increases operating radius of the faucet and offers easy switching between mousseur and the spray.

Pull-Out Mousseur Spray

Increases operating radius of the faucet and offers different sprays.

Pull-Out Mousseur

Increases the operating radius of your faucet.

SpeedClean

Remove limescale with a single wipe.

Accommodating your every wish and desire, GROHE water systems and kitchen faucets include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility; which is why our products are such a pleasure to use.

PreWindow

To open the window, just lift up the faucet and lay it flat on the surface.

ComfortHeight

Height of the spout allows easy filling of large pots.

SwivelStop

Limited turn angle prevents flooding.

Forward Rotating Lever

Forward rotating lever prevents the lever hitting the backsplash.

Enhanced Water

Superior-quality water directly from the kitchen faucet – saving time, money and the environment.

GROHE WATER SYSTEMS

THE SOURCE OF ENJOYMENT

Water is the source of life, fresh, free-flowing and essential. Our range of water systems offers a tailored drinking experience of purity and convenience that will turn water into a source of health and enjoyment in your home.

Kettle-hot or filtered, chilled still or sparkling, our water systems deliver ready-to-use water conveniently from your kitchen faucet.

GROHE
BLUE®

16

GROHE BLUE®

Imagine drinking water fresh from a mountain spring – life-affirming, thirst-quenching, and absolutely pure. Now imagine the same health-giving, untainted water flowing directly from your own kitchen faucet. The GROHE Blue® water system makes this a reality in your own home. It transforms ordinary tap water and filters it, leaving a taste as fresh and pure as nature intended.

Whatever your idea of perfect water refreshment – filtered, chilled, sparkling or all three – GROHE Blue® brings it to you straight from the faucet.

FIND OUT THE WAYS IN WHICH GROHE BLUE® BRINGS BENEFITS TO YOUR HOME:

TASTE

GROHE's filters remove impurities to give water a pure, fresh taste that even beats bottled water

HEALTH & WELLNESS

removing even small particles but leaving behind precious minerals, GROHE Blue® makes it easy to embrace the health-giving properties of water

CONVENIENCE

no more carrying heavy bottled water home

SUSTAINABILITY

kinder to the environment, with less waste on packaging and processing compared to bottled water

GROHE BLUE®

PURITY YOU CAN TASTE

It all comes down to taste. A representative survey which asked consumers to taste GROHE Blue® water alongside three leading still mineral waters found that GROHE Blue® water tastes better! 73% of consumers assessed the taste of GROHE Blue® water as “fresh”, while only 63 % of those surveyed found the mineral waters to have a “fresh” taste.

GROHE Blue® water doesn't just taste great by itself: it also gives coffee and tea a much more refined and intensive taste.

Clear taste test winner over
3 leading mineral waters
GROHE Blue® tastes fresher!

HOSE 1
GROHE BLUE®
FILTERED
WATER

HOSE 2
UNFILTERED
WATER

SEPARATED INNER WATER WAYS FOR 100 % PURITY AND TASTE

To ensure that GROHE Blue® water does not come into contact with unfiltered water or with metal parts after filtering, the high-quality fitting features two separate waterways – one for the ordinary mains water and one for the purified GROHE Blue® drinking water. This prevents from becoming tainted, preserving the great filtered taste.

HEALTHIER LIVING FROM THE SOURCE

Water is the most precious and fascinating element on earth, the source of life itself, with proven benefits for our health, wellbeing and even appearance. The „Deutsche Gesellschaft für Ernährung“ (German Nutrition Society) recommends that we drink at least two litres of water each day.

Many of us opt to buy bottled water, either because it tastes better than tap or because we believe it is healthier than tap water. However scientific analysis has proved that, due to strict regulations and controls on our drinking water supplies, tap water is at least as good as bottled.

Another reason people spend a small fortune on bottled water is the preference for sparkling water. Now GROHE Blue® delivers all the benefits of bottled water, straight from the tap. It provides a great taste, plus the option of sparkling water too. This makes GROHE Blue® the ultimate solution, not just for good health but for great taste as well.

GROHE BLUE®

CONVENIENCE ON TAP

Think for a moment about the energy and hassle it takes to keep a supply of bottled water on hand at home.

You have to buy it from the supermarket, then lug it from the car to your house. Once there you have to find space to store it out of sight. And when you've finished it you have to return or recycle the plastic bottles, before starting the whole process again.

By installing a GROHE Blue® system in your kitchen you can say goodbye to the hassle and inconvenience of bottled water with no compromises on taste or health. Just turn the tap and enjoy an unrivalled refreshment experience. What could be easier than that?

REDUCING WASTE, RESPECTING NATURE

Water needn't cost the earth

It takes an astonishing 7 litres of water to produce a single litre of bottled mineral water. Not to mention the energy used, CO2 emissions created and the 1.5 million tons of plastic packaging used by the industry each year.

At GROHE we are always working to secure the future of water, our most precious natural resource. This is the driving force behind the development of such products as GROHE Blue®, which help people manage their water and energy consumption with ease.

Sustainable solutions

GROHE Blue® offers a smart alternative which cuts the waste involved in processing bottled water and reduces CO2 emissions by an impressive 83%, according to a study by the University of Goettingen. GROHE Blue® also just needs the 1 litre you drink instead of 7 litres for bottled water, reducing waste by 85%. This makes the GROHE Blue® water system a sustainable alternative to bottled water.

TO PRODUCE 1 LITRE
OF BOTTLED WATER,
AN AMOUNT OF 7 LITRES
OF WATER IS NEEDED.

GROHE
BLUE NEEDS
ONLY ONE.

GROHE BLUE® BWT FILTER TECHNOLOGY

The most precious resource in the safest hands

Tap water is now transformed into safe, pure refreshment, using the innovative GROHE Blue® Ultra-Safe product range. GROHE Blue® Ultra-Safe filters the water with technology supplied by BWT and then cools it down to the ideal temperature for you to enjoy. The GROHE Blue® Ultra-Safe filter removes bacteria and purifies the water by taking out chlorine and other unwanted substances to ensure the safest and freshest drinking experience.

**GROHE BLUE®
ULTRASAFE FILTER DETAILS**

Proposition:

Improvement of Water Quality

Technology:

Carbon Block with Ultra Filtration

Type:

Wodapur

Input Water:

Drinking water quality is not needed, however the filter has only be to used with tap water of the local water supplier (no fountain water)

Benefit:

Filters chlorine and organic compounds, reduces the carbonate hardness, takes out every bacteria up to 0.02 mu

Capacity:

600 Liter or max. 6 months

Measurements:

31,5 x 8,8 cm

GROHE BLUE[®] CHILLED & SPARKLING

Do you like your chilled drinking water still or sparkling? Somewhere in between? With GROHE Blue[®] the choice is all yours. First the water is filtered to remove impurities. Then it is chilled to create that mountain-fresh taste. And when you turn on the tap a simple twist of the handle lets you choose whether still, medium sparkling or sparkling water flows into your glass.

Fresh water tailored to your exact taste, flowing straight from the faucet – it's as easy as 1, 2, 3. While the right-hand lever on a GROHE Blue[®] faucet mixes hot and cold water as normal, a handle on the left serves the chilled and filtered water and controls how sparkling your drinking water is, from perfectly still to bursting with bubbles.

An LED indicator in the lever changes colour to let you see your chosen carbonation level at a glance – still, medium sparkling or sparkling – as well as telling you when the filter capacity has fallen below 10% and will soon need to be changed. The water temperature can also be set to your personal taste, individually regulated to between 6 °C and 10 °C .

STILL WATER

MEDIUM SPARKLING WATER

SPARKLING WATER

GROHE BLUE® CHILLED & SPARKLING

As well as letting you select your ideal taste in drinking water, GROHE Blue® technology comes in a variety of design styles and options, making it a perfect fit, whatever your style of kitchen. Select one of four desirable faucet styles – the classic GROHE Blue® with C- or U-shaped spout, the GROHE Blue® K7 or the GROHE Blue® Minta.

For those who don't wish to replace their current faucet there's GROHE Blue® Mono. With a single pillar tap which sits alongside your existing faucet, you can add chilled and sparkling water. It's pure and simple.

GROHE BLUE[®] ULTRASAFE PURE

Pure water enjoyment.

For people who prefer still water only, GROHE Blue[®] UltraPure is the ultimate solution. Better tasting than tap water, better for the environment than bottled water, and much more convenient for you, GROHE Blue[®] UltraPure offers drinking water of ultimate purity.

GROHE BLUE® ULTRASAFE PURE

If pure, filtered, unchilled water is your preference then GROHE Blue® UltraPure is your solution. While the right-hand lever on GROHE Blue® UltraPure faucet mixes hot and cold water as normal, a handle on the left serves the filtered water. Simply select your faucet style from four options - a C- or U-shaped spout, the GROHE Blue® K7 with optional pull-out spray or the GROHE Blue® Minta, or add an elegant GROHE Blue® Mono pillar tap to sit alongside your existing faucet – the choice is all yours.

GROHE BLUE®

A SMART SOLUTION FOR YOUR OFFICE KITCHEN

A busy office runs on... tea, coffee and lots of fresh water. From water-cooler moments to brainstorming sessions powered by a pot of hot coffee, drinking water is at the heart of the day-to-day life of any company. Now you can find a smarter solution that saves your company time, energy and money, while offering great taste and unbelievable convenience, with GROHE's water systems.

*Total consumption of 33.000 litres water (in a company with 30 employees; 1 litre/person/day; over a period of 5 years).

-83.4%

-62.4%

ENJOY FRESH THINKING WITH GROHE BLUE®

With a GROHE Blue® water system your company can enjoy the benefits of filtered chilled and sparkling water on tap:

BEST VALUE FOR MONEY

GROHE Blue® filters, chills and even carbonates tap water, so no more expensive and disruptive deliveries of expensive bottled water.

MOST ENVIRONMENTALLY SUSTAINABLE

With no plastic bottles and lower CO2 emissions* than for normal bottled water GROHE Blue® will reduce your office's carbon footprint.

The University of Goettingen made a detailed analysis of the influence of drinking water production on our environment. With only 17.96 gr per litre, GROHE Blue® saves up to 62.4% CO2 emissions compared to gallon water and 83.4% compared to bottled water.

FREE UP PRECIOUS SPACE

With GROHE Blue® there is no more need to set aside vast amounts of valuable office space for storing bottled water.

GROHE PREMIUM LIFESTYLE COLLECTIONS

THE SOURCE OF INDIVIDUALITY

GROHE EASYTOUCH

LOVE AT FIRST TOUCH

Kitchens are hands-on places, where multi-tasking is a must. Why not make life easier for yourself with a GROHE Touch faucet? It lets you control the flow of water with a simple touch of the wrist or forearm, making your kitchen more hygienic, convenient and instinctive to use. Change the way you control your kitchen with just a single touch.

Ideal for busy kitchens where there's always something going on, EasyTouch is hygienic and convenient, and comes without any compromise on style. With GROHE EasyTouch you can spend less time cleaning and more time cooking, baking, kneading, finger-painting... living.

GROHE EASYTOUCH

LIBERATE YOUR HANDS

The kitchen is the heart of your life at home – and let's face it, sometimes life gets messy. With GROHE's innovative Touch faucets sticky fingers won't slow you down and cross-contamination is a thing of the past. Hidden GROHE technology lets you start and stop the flow of water with a single tap of your arm, wrist or the back of your hand, anywhere on the spout. No more greasy fingerprints or struggling to turn a lever with your elbow.

GROHE ZEDRA TOUCH

Put the sweeping, sensual power of water at the centre of your kitchen with the Zedra Touch. Zedra's distinctive fluted swivel spout and beautifully tactile lever combine ergonomic design with visual flair. And with the addition of GROHE's EasyTouch technology, you can also control the water flow with just one touch.

Choose your Touch function in a cold water-version or upgrade with an under-sink Grohtherm Micro thermostat for perfectly controlled warm water and no danger of scalding.

GROHE ESSENCE

Discover a minimal style that's full of warmth with GROHE's new Essence faucet. The slim architectural shape is enhanced with organic design elements ideal for a contemporary kitchen, inviting touch and interaction for the sensual chef.

NEW

GROHE ESSENCE

DELICATE DESIGN, POWERFUL FEATURES

A distinctive, delicate body conceals advanced technology in the new Essence faucet. The cylindrical body is super-slim, thanks to a new small cartridge, offering pure elegance without compromise. A solid metal spray head guarantees life-long performance, and you can switch easily between two spray patterns with a toggle function that puts flexibility to the fore.

GROHE ESSENCE

Choose between two models, one with swivel spout and one with a solid metal pull-out spray, which offers easy switching between mousseur and spray. Add in a choice of two great-looking and durable finishes and you'll see that great design doesn't have to mean compromise on functionality.

GROHE EUROCUBE

Make a statement with GROHE's Cubist masterpiece. The Eurocube's strong lines and solid, architectural shape is perfect for modern kitchens where design is at the forefront. From the lever's cut-out detailing to the new professional-grade features, this is a faucet for those who are both style conscious and serious about their cooking.

NEW

GROHE EUROCUBE

Eurocube is available in two versions. Choose between a swivel spout model and the new semi-professional mixer with pull-out dual spray. Mounted on a spring hose with 360° movement, the head switches easily between two spray options, giving ultimate flexibility and great high-spec performance.

GROHE EUROSMART

Create a kitchen that the whole family can take pleasure in with the new GROHE Eurosmart. Effortless control, unrivalled performance and temperature-safe operation combine in a sleek contemporary design.

NEW

GROHE EUROSMART

Lead and nickel free: separated inner water ways
Isolated inner water ways guarantee water has no contact with lead or nickel

MAKE THE SMART DESIGN CHOICE

Eurosmart has more features than ever before. The easy exchange mousseur lets you install or remove it to clean limescale with just a coin. Separate inner water ways guarantee that the water inside the faucet never comes into contact with lead or nickel. You'll also find that our optional variant with GROHE SilkMove® ES cartridge supplies cold water only when the lever is in the central position, which saves energy because water is not heated unnecessarily. Add to that an integrated temperature limiter that can be individually set to your desired maximum temperature and you'll understand why Eurosmart puts unbeatable functionality in your hands.

EasyExchange mousseur
The mousseur is easy to install and de-install using just a coin

GROHE EUROSMART

The solid cylindrical body, the elegant curve of the spout – the new Eurosmart range looks great while offering huge versatility. In a variety of two heights, with a useful swivel spout and the option of our water-saving GROHE EcoJoy feature or the energy-saving cold-start cartridge GROHE SilkMove® ES, the new Eurosmart is bound to fit in with your busy family kitchen.
